RE: **Expression of Support - Cascade Skyline**

Dear Allan:

I am reaching out to you regarding the Cascade Skyline project proposal near Bridal Falls, BC.

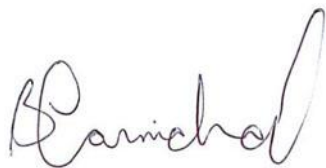

At Doppelmayr Canada we design, manufacture, install and maintain aerial passenger ropeways like the Sea to Sky Gondola and the Peak to Peak Gondola. Our Western Canadian operations are based in Kelowna, BC.

We have been working with the Cascade Skyline proponents for some time and we are so enthusiastic about the potential of this project, that we have offered financing terms to the proponents. This is one of only a handful of projects in North America that we have done that for which is a testament to our belief that this project is of significant value to the community and has long term sustainability and viability. We will not be offering such support to the Bridal Veil Mtn Resort (BVMR) project and we have not worked on that project since the early 2000's I understand.

We look forward to the successful completion of this project and the added benefits it will bring to the region and the province.

Best Regards,

**DOPPELMAYR CANADA LTD.**
